Double Color Ball	6 red balls + 1 blue ball
Super Lotto	5 front-zone numbers + 2 back-zone numbers

How to read this guide

Item	Explanation
USD / RMB	Fixed prizes show a USD reference together with the official RMB prize. USD figures are for reading convenience only; official settlement remains in RMB.
Variable prizes	Any tier whose payout changes from draw to draw is marked “Variable”. The officially announced amount for that draw is the controlling figure.
Official rules	If this guide differs from official rules, draw notices, or local claim requirements, the official information always prevails.

Content	What this guide includes
Games covered	China Welfare Lottery Keno 8; China Welfare Lottery Double Color Ball; China Sports Lottery Super Lotto
PDF contents	Prize tiers, winning combinations, claim rules, tax notes, and USD reference values
How to read amounts	Fixed prizes show both RMB and a USD reference. Variable prizes remain subject to the official amount announced for the relevant draw.

This guide is a practical reference only. It does not replace official lottery rules, draw notices, claim procedures, or final settlement results.
FX reference: 100 USD = 692.36 CNY, using the official RMB central parity rate published on March 2, 2026 as the next available business-day reference after March 1.

Double Color Ball prize table

Choose 6 red balls from 1-33 and 1 blue ball from 1-16. The table below shows the winning combinations and official prize structure.

Ticket structure		6 red balls (1-33) + 1 blue ball (1-16)		
		Fixed tiers show the official RMB prize and a USD reference; variable tiers are marked separately.		
Tier	Winning combination	Prize (RMB)	USD reference	Type / note
Tier 1	6 red + 1 blue	Variable	Draw-specific	Variable - the officially announced amount for that draw prevails.
Tier 2	6 red	Variable	Draw-specific	Variable - the officially announced amount for that draw prevails.
Tier 3	5 red + 1 blue	RMB 3,000	USD 433.30	Fixed
Tier 4	5 red, or 4 red + 1 blue	RMB 200	USD 28.89	Fixed
Tier 5	4 red, or 3 red + 1 blue	RMB 10	USD 1.44	Fixed
Tier 6	1 blue ball	RMB 5	USD 0.72	Fixed
Lucky Prize	Exactly 3 red balls	RMB 5	USD 0.72	Available only while the official Lucky Prize promotion is active.

Lucky Prize: under the 2026 rules, an additional RMB 5 prize applies while the official Lucky Prize activation conditions are in effect and a ticket matches exactly 3 red balls.

Super Lotto prize table

Choose 5 numbers from the front zone (1-35) and 2 from the back zone (1-12). Tiers 3-7 are fixed, with two payout bands depending on whether the official prize pool has reached RMB 800 million.

Ticket structure	5 front-zone numbers (1-35) + 2 back-zone numbers (1-12)			
	Tiers 3-7 are fixed; the applicable amount depends on the official prize-pool threshold.			

Tier	Winning combination	Pool < RMB 800 million	Pool ≥ RMB 800 million	Type / note
Tier 1	5+2	Variable	Variable	Variable - the officially announced amount for that draw prevails.
Tier 2	5+1	Variable	Variable	Variable - the officially announced amount for that draw prevails.
Tier 3	5+0 OR 4+2	RMB 5,000	RMB 6,666	Fixed; amount depends on the official prize-pool threshold.
Tier 4	4+1	RMB 300	RMB 380	Fixed; amount depends on the official prize-pool threshold.
Tier 5	4+0 OR 3+2	RMB 150	RMB 200	Fixed; amount depends on the official prize-pool threshold.
Tier 6	3+1 OR 2+2	RMB 15	RMB 18	Fixed; amount depends on the official prize-pool threshold.
Tier 7	3+0 / 2+1 / 1+2 / 0+2	RMB 5	RMB 7	Fixed; amount depends on the official prize-pool threshold.

This page summarizes the main prize structure for basic play. Additional-play payouts and local claim details remain subject to the officially announced result and the applicable claim rules.

Claim rules and FX reference

Key points to know before claiming a winning ticket.

Item	Explanation
Winning ticket	The original winning ticket is an essential credential for an official claim.
Claim deadline	The prize must be claimed within 60 calendar days of the draw date.
Official settlement currency	Official prizes are settled in RMB. USD figures in this guide are reference values only.
Variable / capped prizes	If a prize is variable or capped, the officially announced result for the relevant draw is final.
Identity and verification	Under the official claim rules, the claim institution may require the winning ticket and valid identification.
FX reference used in this guide	Reference date: March 1, 2026. Because it was not a business day, this guide uses the official RMB central parity rate published on the next available business day: 100 USD = 692.36 CNY (about USD 0.14443 per CNY).

Claim and FX notes are kept on a separate page so the game prize tables remain easy to scan.

Lottery prize tax and estimated net amount

The table below summarizes the prize-tax treatment used in this guide before any FX conversion or later payout processing.

Status	Official prize	Official tax treatment	Estimated net before FX
Tax-free	≤ RMB 10,000	Official lottery-prize tax: 0%	100% of the official prize
Taxable	> RMB 10,000	20% withheld on the full official prize	About 80% of the official prize

Examples

Official prize	Official tax	Estimated net before FX
RMB 5,000	RMB 0	RMB 5,000
RMB 10,000	RMB 0	RMB 10,000
RMB 20,000	RMB 4,000	RMB 16,000
RMB 100,000	RMB 20,000	RMB 80,000
RMB 1,000,000	RMB 200,000	RMB 800,000

If the official prize on a single ticket exceeds RMB 10,000, the 20% withholding is calculated on the entire prize, not only on the portion above RMB 10,000. Users remain responsible for checking any additional tax obligations in their own country or region.

Sources and usage notes

The source basis for this edition is summarized below.

Source basis	This guide is compiled from official lottery rules, official draw / calculation materials, and official RMB benchmark exchange-rate information. In all cases, the official publications remain the final authority.
Item	Reference basis
